Watermill Express® Provides Water for the 5th Annual Steps for Students 5K Run/Walk

Brighton, Colo. – February 20, 2010 – Watermill Express, the nation's largest drive-up vendor of pure drinking water, provided 225 gallons of water to over 5,000 participants in the Steps for Students 5k Run/Walk at Robertson Stadium in Houston, Texas.

Watermill Express provided chilled water to racers before, during and after the race. The Steps for Students Run/Walk was held to raise money for inner city Catholic schools in the Houston area. In total, 48 school communities raised \$266,000 in pledges for the event.

“The support of Watermill Express allowed us to not only hydrate people in attendance, but to focus resources back to our tuition assistance program which provides needs based assistance to families in Catholic schools,” said associate director of development Michael Schillaci.” We can't thank Watermill Express enough for its support and look forward to having them back next year.”

The money raised from the Steps for Students Run/Walk goes to the Archdiocesan Tuition Assistance Program. The Archdiocesan Tuition Assistance Program is a yearly commitment that the Archdiocese makes to keep Catholic schools accessible, available and affordable to all families.

About Watermill Express:

Watermill Express is the nation's largest provider of drive-up, pure drinking water. Founded 26 years ago in Brighton, Colorado, the company serves over 100,000 customers daily in the existing 1,300 corporate and franchised locations. Customers supply their own containers and purchase one, three or five gallons of water for an average price of 35¢ per gallon. This is a savings of nearly 95% when compared to a typical 20 oz. bottle of water selling off-the-shelf at \$1.00 per bottle.

Watermill Express is an environmentally friendly alternative to pre-packaged water. By promoting reusable containers, the company has prevented the waste of an estimated 500 million disposable water bottles.

As the innovator of the drive-up pure drinking water concept, Watermill Express is the first in the nation to utilize a daily 29-step quality control checklist, surpassing even the most rigorous state inspection requirements.
